Potential Course Outline for Psychology Major Interested in Sports Psychology

*There are multiple potential pathways to prepare you to work in the field of Sports Psychology either following earning your BA or after you attend a relevant graduate program. This document is intended to indicate courses we currently offer within the psychology major that are considered especially relevant by the professors who teach them. As always, there are unique reasons to take courses at specific times, so please discuss your plans with your academic advisor.

**Key:**

- **Courses in bold** have been recommended as relevant to assist you on your path toward graduate school in clinical psychology or a career related to clinical psychology by at least one professor who teaches that course.
- **Courses in bold and italics** are additional potentially relevant courses.
- Where relevant it indicates which courses should be taken before others. (*Please note: These are not the official pre-requisites for the course; these are just recommendations from the professors who teach these courses. Please make sure you have satisfied the official pre-requisites as well.)
- Courses that are not in bold are other courses that are offered within the major that may or may not be relevant to your specific goals and interests.
- All courses are listed numerically within each set of courses; specific courses to take will depend on your goals and interests as well as which courses are available to enroll in.

**Take these two courses as soon as possible:**

Psyc 201: Introduction to Psychology

Psyc 202: Statistics for Behavioral Sciences (Take with Psyc 201 if possible or the next semester)

Psyc 205: Research Methods in Psychology

**Take courses from this set of courses as soon as you are allowed to take 300-level courses and have taken Psyc 201:**

Psyc 301: Developmental Psychology

Psyc 309: Learning

Psyc 311: Abnormal Psychology

Psyc 319: Brain and Behavior

Psyc 321: Social Psychology

**Take courses from this set of courses as soon as you have taken at least 3 courses from the list above and once you have taken the relevant pre-requisites and additional recommended courses (in parentheses after some courses).**

Psyc 313: Experimental Analysis of Behavior

Psyc 315: Personality

Psyc 317: Tests and Measurements
Potential Course Outline for Psychology Major Interested in Sports Psychology
